

# iBlüm Learning Companion Starter Guide

For Parents

# Features Overview

Here's a glance at what you can find within the app:

Developmental  
Insights

Multimedia  
sharing

Daily Diary

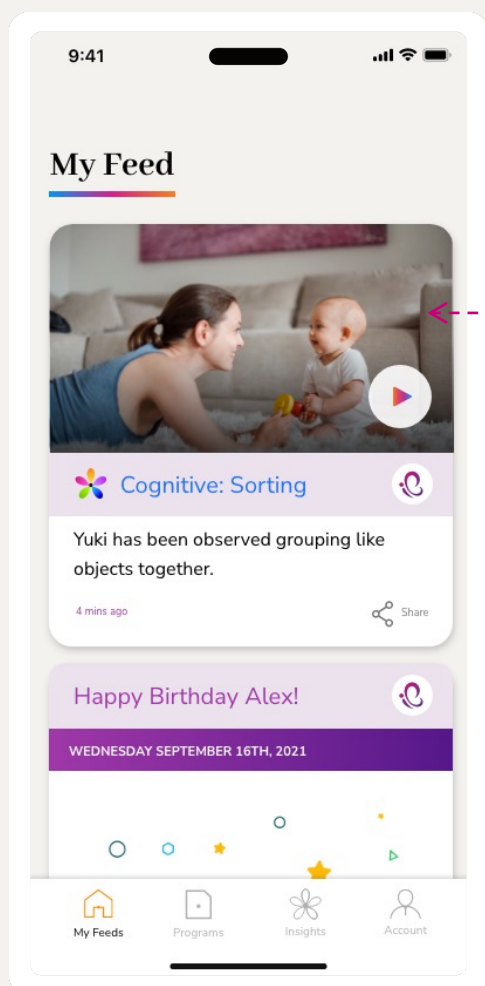

Personalized  
learning content

# Engage in a Unique Learning Experience

Receive content that is tailored specifically for your child.

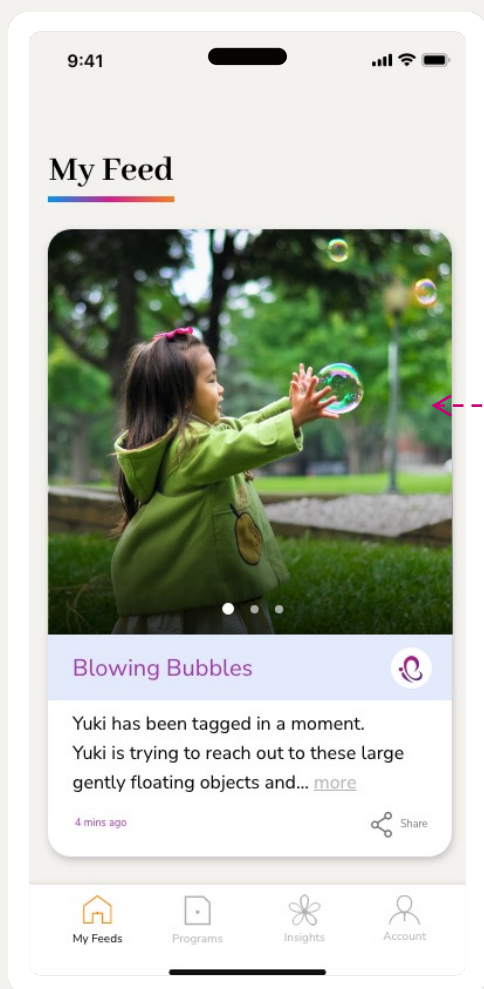

Your feed is where you will see posted content.

The feed highlights information that includes announcements, publications, observed skills, and special moments.

# Never Miss a Special Moment

See key moments of your child's day in real time.

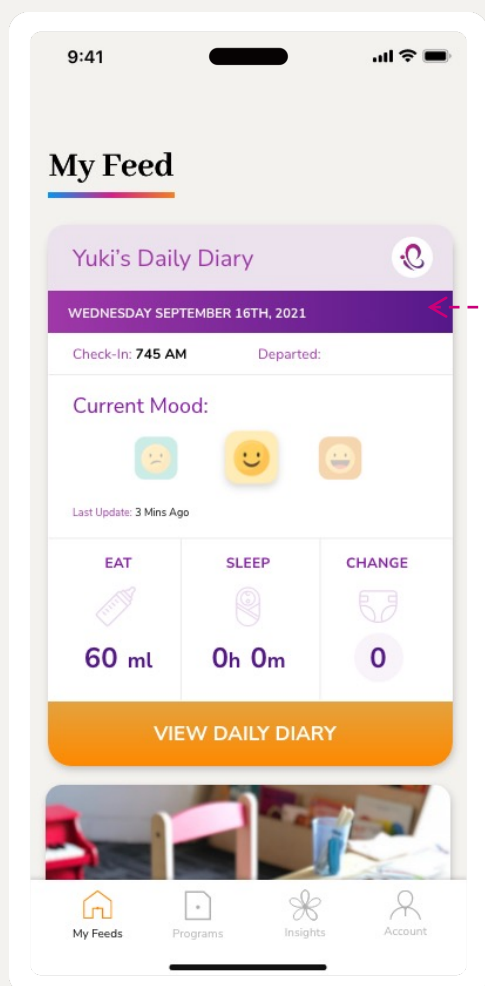

Each time a moment is captured by the teacher, it will show up on your feed with a picture and a caption describing the moment.

# Know Your Child Is Cared For

Feel connected and confident about your child's care and learn about their daily habits.

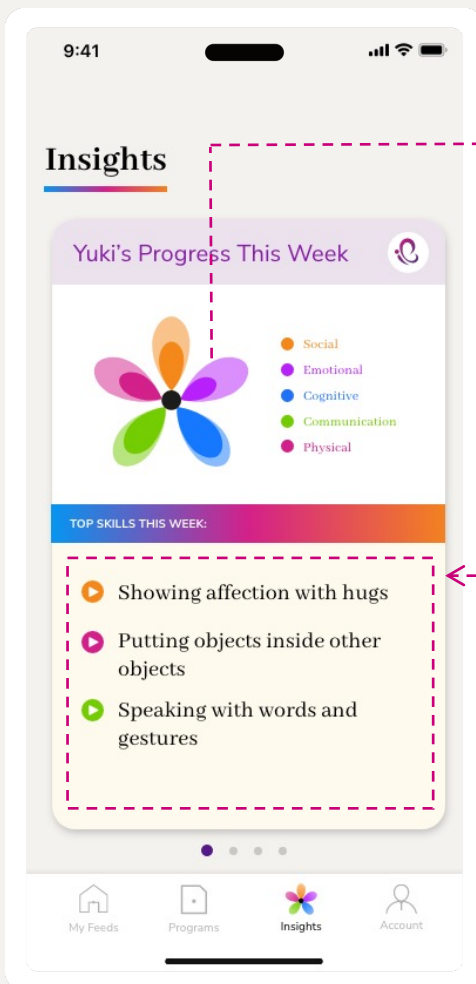

The Daily Diary allows you to have insights on your child's well being.

The card highlights their attendance, mood, sleeping schedule, diaper change & toilet routines, and eating habits.

# Valuable Developmental Insights For You

Reflect on your child's weekly play and learning experiences in different domains through the Insights tab.

Within the insights you will see the “Flower” which represents your child’s development. As your child has experiences in a certain domain, the petal associated with that domain will bloom.

Each week you will also be able to see your child’s featured skills.

These featured skills will be paired with personalized videos that explain your child’s development during that week.

# How to Get Started

## Step 1

Check your email for your iBlüm credentials from your child's school

## Step 2

Download the app and log in

## Step 3

Watch the Welcome Video

## Step 4

Help us get to know your child better

## Step 5

Start exploring the iBlüm Learning Companion App

# Download & Explore the iBlüm Learning Companion Today!
